1. Claims 1-9 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicants have failed to define the term, “highly branched”. Despite applicants’ response, it remains unclear from the specification what amount or degree of branching constitutes “highly branched”. Though applicants have referred to other patents that recite the term, applicants have also stressed the structural differences between the instant invention and those of prior art references, such as the Kumar references; therefore, it is by no means clear that these other recitations of the term provide adequate guidance as to what is intended by the term, as it applies to the instant application. In summation, there remains insufficient evidence on the record to establish exactly what degree of branching is mandated by the term.

2. Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Firstly, despite applicants’ response, the language, “highly branched”, renders the claims indefinite, because the language is subjective. For the reasons set forth above, it cannot be determined what amount or degree of branching is set forth by the language. Applicants’ reference to other patents that contain the language is insufficient to establish the definiteness of the language.

Secondly, in view of the amendment to claim 1, the subject matter of claim 5 fails to further limit claim 1.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication should be directed to R. Sergent at telephone number (571) 272-1079.
